CERTIFICATE OF QUALITY

This is to report that we the undersigned **Intertek Genalysis South Africa** at the request of our Principal attended **Warjurkar Enterprises Pty Ltd**, 38, Aerodrome, Northmead, Benoni, 1501, Gauteng, South Africa the loading of containers described as **Chrome Ore Concentrate**, packing in bulk inside 20-foot containers at Reddy Cargo Services, Germiston, Johannesburg, South Africa between the 17th of July 2024 to the 23rd of July 2024 we hereby report the following:

Supervision of loading was carried out by Intertek at all stages of operations and the container numbers, Tare and Gross weights as well as start and finish times for loading were recorded. One (1) Bobcat was used to remove material from the stockpile and loaded in bulk, into 20-foot-long containers. Wherever possible, visible contamination was removed from the cargo prior to and during stuffing operations.

Sampling of the cargo was conducted during the loading operation. The material was stored in four (4) stockpiles. Manual sample increments were taken using a sampling scoop from the fresh face of the stockpile and placed in clean plastic bags which were sealed to avoid loss of moisture content. one (1) sub lot sample was generated for particle size determination, moisture determination and chemical testing. The one (1) sub lot sample was homogenised, progressively reduced, divided and finally pulverised. The one (1) prepared sub lot sample was analysed by our laboratory.
